My ACQ Project [alexsaid.vercel.app](#)

Portfolio [tehron.vercel.app](#)

I DIDN'T JUST APPLY. I BUILT SOMETHING TOO.

Scan the code, or follow the link above, to see a concept iOS app I built just for this application.

For the last 10+ years I've worked across brand design, entertainment, apparel, technology, and digital products, taking ideas from an early concept to something people can actually see, use, wear, or interact with.

My work has included brand identities, campaigns, merchandise, websites, digital products, and AI-assisted experiences. More recently I've been using AI and development tools to move beyond static design and turn ideas into working products.

EXPERIENCE

Independent Designer & Creative Technologist

2019–Present

Freelance / Project-Based

- Designed brands, websites, digital products, campaigns, and creative experiences for 50+ clients.
- Lead projects from initial idea through concept, visual direction, design, development, refinement, and launch.
- Combine design with AI and development tools to rapidly prototype ideas and turn visual concepts into functional, working products rather than static assets.
- Build scalable brand systems, templates, and asset libraries that let teams move faster without losing consistency.

Brand Designer / Creative Director

2021–2024

G. Perico / ROC NATION

- Developed the identity and creative rollout for G. Perico's BLUE T-SHIRT brand across merchandise, campaigns, content, and physical experiences.
- Designed branding and merchandise for sold-out pop-ups attended by 2,500+ people, generating \$10K+ in merchandise sales.
- Developed visual concepts for music videos, promotional campaigns, artist content, and merchandise.
- Built a cohesive visual direction across music, culture, fashion, physical merchandise, and digital content.

Design Assistant

2020–2021

Karl Kani • Los Angeles, CA

- Produced fashion tech packs, color variations, and product mockups at the pace of a studio built for speed.
- Turned concepts into production-ready graphics working directly with the brand's founder.
- Learned to prioritize clear communication and fast iteration over polish in a small, high-output team.

EXPERIENCE

Creative Director

2016–2020

Can't Buy Respect · Los Angeles, CA

- Created the “Can't Buy Respect” and “Not For Sale” logo options for the brand.
- Featured on Beyoncé.com (The Black Parade: Directory of Black-Owned Businesses).
- Designed and produced marketing materials for trade market shows and fashion events.
- Coordinated with department heads on the release of final production pieces.

Technical Expert

2016–2022

Apple

- Diagnosed hardware, software, account, and connected-service issues in a high-volume customer environment.
- Translated complex technical problems into clear, practical solutions.
- Combined technical problem-solving, communication, and experimentation, skills that now inform how I work with AI and emerging creative technology.
